

Advances in Redox Biology and Medicine: From Basic Mechanisms to Clinical Implications

The 34th Annual Meeting of the Israel Society for Oxygen and Free Radical Research
Joint Sessions with the Society for Free Radical Research – Europe

February 17-18, 2021 (online symposium)

Topic areas and confirmed speakers:

- Sulfur-based redox regulation
- Redox regulation of inflammation and cell death
- Redox processes in quality control and proteome homeostasis

Hermona Soreq (Israel)

Michal Sharon (Israel)

Michael Glickman (Israel)

Elias Arnér (Sweden)

Milos Filipovic (Germany)

Michael Aviram (Israel)

Dov Lichtenberg (Israel)

Deborah Fass (Israel)

Marcus Conrad (Germany)

Clare Hawkins (Denmark)

Haitham Amal (Israel)

Maayan Waldman (Israel)

Gabriela Warpsinski (UK)
